

AGM DEPARTMENTAL REPORT

NAME OF DEPARTMENT: BUIDLING AND FACILITIES

WHAT WE DID LAST YEAR:

Allison Road: Our Estate Agent - Brian Thomas carried out all the Landlord's statutory obligations and responsive repairs on the Church's behalf last year.

The Manse: The church has kept up with all responsive repairs as and when required or as they came up at Pastor's residence.

The Church Building: The Fire Alarm was updated to cover all areas of the building including Hammond House. The Pipe Organ area was cleared up by inspired Church members. An Architect was appointed to produce drawings, and after which she presented it to the Church and was well received. Haringey Council has since approved the plan. We can now proceed with the works.

Hammond House: All the necessary repairs were carried out as and when required. A Retractable Canopy [Awning] was installed for outdoor activities and have since been in use.

WHAT WE INTEND TO DO THIS YEAR:

Allison Road: We are planning to refurbish the front of the building, i.e. repair window sills, paint the front etc.

The Manse: We are planning to refurbish the front the building, i.e. repair window sills, paint the front etc. Be as responsive as we did last year with all the repairs that may come up.

The Church Building: We are currently looking for Contractor to carry out the work for us into rooms for prayer/counselling, storage and small meeting room upstairs.

Hammond House: We want to keep up with responsive repairs and maintenance as when they come up.

PRAYER REQUESTS:

To find good Contractor that we can work with and will complete the work safely and without incident, accident, on time and within budget to the glory of God.
